FROM A COTTAGE DOOR TO A MODERN GRAND ENTRANCE

Lignum wooden doors are made to measure from a small cottage doorway, right up to an entrance 1.2 metres wide and 2.4 metres tall.

BESPOKE DESIGN, EXTREMELY SECURE AND HIGHLY ENERGY EFFICIENT

There really are no compromises with a new Lignum wooden entrance door. You can choose your ideal door that is safe, warm and manufactured to last for years and years to come.

ENGINEERED TO LAST

The Lignum door is 58mm thick and engineered to perform. A hardwood veneer encapsulates the cross banded reinforced timber and insulation core. The result is an energy efficient door that is highly stable and anti-warp.

LOW MAINTENANCE

The multi-layer durable paint coating protects from the weather, resists scratches and is designed to retain its colour for many years.

CERTIFIED FOR HIGH SECURITY AND WEATHER PERFORMANCE

Lignum doors are tested to stringent standards.
